

Innovation & Digital Transformation Special Interest Group

Thursday 15 April
10:00 am – 3:00 pm
Campbell Town Recreation Ground Complex
57 High Street, Campbell Town

Agenda

9:45 am	Registrations and morning tea/coffee on arrival
10:00 am	Welcome and introductions – Yolanda Sam, City of Hobart and Jeff Griffith, Devonport City Council
10:05 am	Rob Rowell, Managing Director, Insight GIS Topic: Driving value from your GIS GIS is a critical cog in the information systems of councils. This presentation will address the challenges and opportunities that exist for local government in generating greater benefits from GIS.
10:45 am	Claire Smith, Director of Strategic Services, Cradle Coast Authority Topic: Cradle Coast Shared Services Strategy A new direction: For over two decades Councils in the Cradle Coast region have been collaborating in various forms, however, it's time to act, maintaining the status quo is not an option; public expectations and economic reality demand we do things differently.
11:15 am	Roland Leggat, Modern Workplace Specialist, Insight Topic: Microsoft's vision of the modern workplace The nature of work is changing and the modern workforce demands the ability to work anytime, anywhere, with anyone. You need to be able to harness the power of connectivity and collaboration to attract and retain talent, drive productivity, work securely and simplify management. Insight helps businesses do this through Microsoft's Client Immersion Experience Program, helping businesses test-drive solutions to address their biggest business challenges.
12:15 pm	Lunch
12:45 pm	Jeff Griffith, Deputy General Manager, Devonport City Council Topic: Leading through Change: Local Government is not often known for innovation, digital transformation and a dynamic organisational culture.... Change Starts with Us!
1:30 pm	Vikas Sharma, Regional Business Development Manager ANZ, Red Piranha Topic: Understanding Supply Chain and 3rd Party Risk Every time an organisation interacts with a supplier, manufacturer, distributor or a service provider there is an inherent risk. If products or services access valuable systems, operate with privileged access, they may represent a weakness that could be exploited by an adversary. Red Piranha team will share some insights and how these risks can be mitigated.
2:15 pm	General discussion facilitated by Yolanda Sam & Jeff Griffith – Please bring with you a topic for discussion – Ideas/Topics for next forum
3:00 pm	Meeting close
